Summary

Full-stack developer specializing in the MERN stack. With a practical engineering degree in electronics, and a great passion for technology and innovation. Enjoys building web applications, with a tendency towards the front-end, and finding new documentations to explore!

Experienced with the following libraries and technologies:

Front-End: JavaScript, TypeScript, React, PWA, Redux, Context, React-Query, Axios, Formik, Styled components, Material-UI, Bootstrap, SCSS, CSS, HTML

Back-End: Node.js, Express, MongoDB, Socket-IO, Passport.js, Oauth2.0

Misc: Jest, Es-Lint, Git, Linux, Circle-CI, Postman, Python

Work experience

Feb 2023 - Present: Socialo | Full Stack Developer | Freelance

React, Node.js, MongoDB, Oauth, TypeScript, Context, React-Query, Formik, Styled-Components, Material-UI

Developing an AI-based SAAS digital marketing platform for businesses and marketing agencies. Integrating with Open-AI to automate the process of creating, refining, and publishing professional posts on social media. Enabling companies to efficiently create and maintain high-quality content quickly and with ease.

Oct 2022 - Present: eBigay | Front-End Developer | Volunteering

React, TypeScript, PWA, Context, React-Query, Formik, Styled-Components, Material-UI

Working in the frontend team for a marketplace web app that connects donors with those in need. Developing responsive and user-friendly UI from scratch, according to the given design in Figma. Consuming the server API and collaborating with the back-end team. Working with SCRUM methodology.

Projects

Get Jokes

React, Redux, Bootstrap, CSS, Node.js, Express, MongoDB, Passport, Oauth2.0

A MERN Stack web app that fetches jokes from a variety of over 1000 jokes, according to the user's queries. Users can create free accounts and save the jokes they liked in a personal collection.

Includes unit tests and CI/CD, and a custom dark mode that applies automatically on dark-themed devices

IP Address Tracker

React, TypeScript, Fetch, CSS, Ipify-API, IP-Geolocation-API, Leaflet-Map

A tracking app that locates users by their IP address.

Can locate any valid IPv4 address on the globe!
