## Summary

Full-stack developer specializing in the MERN stack. With a practical engineering degree in electronics, and a great passion for technology and innovation. Enjoys building web applications, with a tendency towards the front-end, and finding new documentations to explore!

**Experienced with the following libraries and technologies:**

**Front-End:** JavaScript, TypeScript, React, Next.js, Redux, Context, React-Query, Axios, Formik, Styled components, Material-UI, Bootstrap, SCSS, CSS, HTML

**Back-End:** Node.js, Express, MongoDB, Prisma, Socket-IO, JWT, Passport.js, Oauth2.0

**Misc:** Jest, Es-Lint, Git, Linux, Circle-CI, Postman, Python

## Work experience

### Jan 2023 - Present:  Socialo | Full Stack Developer | Freelance
**React, Node.js, MongoDB, Oauth, TypeScript, Context, React-Query, Formik, Styled-Components, Material-UI**

Developing an AI-based SAAS digital marketing platform for businesses and marketing agencies. Integrating with Open-AI to automate the process of creating, refining, and publishing professional posts on social media. Enabling companies to efficiently create and maintain high-quality content quickly and with ease.

### Oct 2022 - Feb 2023:  eBigay | Front-End Developer | Volunteering
**React, TypeScript, PWA, Context, React-Query, Formik, Styled-Components, Material-UI**

Working in the frontend team for a marketplace web app that connects donors with those in need.
Developing responsive and user-friendly UI from scratch, according to the given design in Figma.
Consuming the server API and collaborating with the back-end team.
Working with SCRUM methodology.

## Projects

### Similarity API
**Next.js, TypeScript, Next-Auth, Prisma, Redis, TailwindCSS, Radix-UI**

A Full-Stack Next.js project, containing a rate-limited API in the backend and a user dashboard with documentation in the front end. The API receives 2 pieces of text and returns a number between 0-1, representing their similarity.
- Project
- GitHub Repository

### Get Jokes
**React, Redux, Bootstrap, Node.js, Express, MongoDB, Passport, Oauth2.0**

A MERN Stack web app that fetches jokes from a variety of over 1000 jokes, according to the user's queries.
Users can create free accounts and save the jokes they liked in a personal collection.
Includes unit tests and CI/CD, and a custom dark mode that applies automatically on dark-themed devices

## Education And Courses

- Javascript Algorithms And Data Structures Masterclass by Colt Steel , Udemy | 2022
- The Complete 2022 Web Development Bootcamp by Dr. Angela Yu, Udemy | 2022
- Practical Engineering In Electronics | Kziney Yam Acre | 2017-2019

## Military Experience

### July 2019 - March 2022:  Power And Control Systems Technician | Israeli Navy
Locating and solving complex problems in large-scale systems.
Ensuring the power and control systems are working properly and the navy ships are qualified
to go on to their missions.
